Document Activity

Document Title: _____

*Multi line EditText UI
Element*

Document Activity

Document Title: _____

Display a Popup Window
with a list of all the other
users that this user can
share this document with.

Note: the user should not be
able to share a document
that is shared with them.

Documents Management Activity

A screen that displays to the user an organize view of all the saved documents.

Possibly use tabs to differentiated the files shared with them and the documents not shared with them.

The design is completely up to you!

Click me to go back

Settings Activity

A screen that gives the user the ability to change their user info first name, last name and password. User has the ability to change the app theme.
